Roll Goods

Econo Max roll goods quality begins with extrusion of our own PVC roll goods. With over one million dollars invested in state-of-the-art extrusion technology, we can maintain high quality and control costs in every aspect of roll good production. At Chase Doors, you get faster turnaround, guaranteed quality...and you pay less because we do it all! We maintain a large stock of PVC strips in a variety of colors and formulations in order to meet short lead times. All Econo Max strips are extruded from self-extinguishing PVC with rounded edges to protect personnel and products.

Econo Max PerfaStrip™

Chase Doors makes the job of replacing vinyl strip door strips easier by offering pre-punched and perforated rolls of Econo Max PVC Strip material. PerfaStrip, the latest addition to the Chase product line, is a continuous roll of PVC strip material that is pre-punched and perforated to your specified length. PerfaStrip perforated replacement strips make installation as easy as 1,2,3! Simply pull out one strip, tear off of the roll at the perforation and hang.
